# Digital Tutors Automotive Modeling In Maya Torrent

During these tutorials we will be using Maya to model a car, but with this tutorial as a base, you can create any car. In this tutorial, we will use the "Mouvement" and "Motion Blur" tools to create the effect of "dynamic" clouds. In this tutorial you will learn how to make realistic clouds. Part 1: Vehicle Modeling To start, let's create a new file about 900x1200 pixels in size. Select the "Mouvement" tool, on the settings panel of which we specify the following parameters: Click on the "New" button. As a result, a new empty scene will appear in your file. Let's start by creating a basic wireframe.
